COLLECTION OF FURNITURE FOR LIVING-ROOM

"Furniteco Nord" furniture program is a collection created based on a mixture of Scandinavian interior traditions and modern design which reinterprets the 50-60s of the last century. It literally captivates with its simplicity and playful mood visible in each line of every product. While developing it, we tried to produce retro items that embody the spirit of the 50-60s and do not leave indifferent many decorators as well as all lovers of the unique design of the last mid-century.

Furniteco Korsa

COLLECTION

In “Furniteco Korsa” bed we tried to bring the basic concept of eco- and ethnic style into realization: to match bedroom interior as closely as possible to the nature reflected in the beauty of the oak wood grain: somewhere it is intricate and complicated, somewhere completely plain. But whenever You look at that drawing of nature You realize that natural is close – within arm's reach. Simple geometric shapes of all the items of “Furniteco Korsa” furniture for bedroom highlight to a greater extent the beauty of the royal wood! And rounded legs and headboard of the bed give charm to that genuine luxury!
