Klupś Children's Furniture

[www.klups.pl](http://www.klups.pl)

## About us

We have been with our customers for more than **50 years**. Above all, we specialise in the production of pine beds. More than **3 million** children's beds have left our factory! Currently, the third generation is sleeping in our products and there is a chance that it was in our cot that you came to sleep in as a child.

## After Sales

We handle complaints about our products, requests for spare parts and other cases on a no-questions-asked basis. Furniture is often the culmination of the entire process of creating a child's room and bolting it together or buying it is put off until the very end. We don't want anything to interfere with your work in the shop or the special moment of preparing the room.

## Wood

It is already selected at the cutting stage at the sawmill, so that it only arrives at us marked as type one. The next stage of selection is already handled by our trusted wood technologists, who very rigorously select the ideal elements for the creation of a cot.

## Quality

The health and safety of toddlers is of paramount importance to us. At every stage of creation, we make every effort to finally provide you with a high quality piece of furniture. KLUPŚ products are made in accordance with current safety standards using raw materials dedicated to children's furniture. We use specially selected wood and water-based paints, found in higher grade furniture.

## Local market

All the main components used come from Poland. We produce our product with control from the stage of a pine board from the sawmill to packaging in a cardboard box. When you buy furniture by firm KLUPŚ, you can be sure that you are supporting our local market.

## Portfolio

The KLUPŚ collection is not only about cots, but also about a wide range of chests of drawers, wardrobes, playpens, bouncers or multifunctional chairs. Thanks to the rich design, our furniture fits perfectly in both modern and more traditional rooms.

## Standard

Our cots have removable rungs and 3 levels of base. The dressers come with a changing table cover that can be removed later.

# NOAH

The combination of white and natural finishes will make the Noah piece of furniture not only useful for a child. By removing the changing table from the chest of drawers, you will gain a piece of furniture which will be an elegant addition not only to the children's room. The soft-touch leather handles make the chest of drawers a pleasure to use. The oak legs further emphasise the stylish character of the set.

# IWO *White*

new

When designing the IWO furniture set, we had two main considerations in the back of our minds. To showcase natural wood and to maintain stability. The warm shade of the pine wood used will give the toddler's room a cozy feel. Valuable features include flat removable rungs, a protective pad on the side of the crib and a safety rail. Ergonomic cutouts in the capacious drawers guarantee their easy opening.

## Cot 120 x 60 cm with drawer and safety rail

# WILLY

new

Simple and classic WILLY collection, to which we added a dresser with pine accessories. In it we highlight the pine sides, the strength of which has been increased by proper use and selection of raw material at the factory. The repetitive motif of white and pine pattern, is chosen by lovers of nature and the smell of wood.
