with premium margins and a price that will  
surprise your customers

Our Benlemi  
brand

Own Czech production  
and design

Solid spruce  
wood

14 color  
shades

Free grate  
with every bed

## The key advantages of the new beds

make you unique  
on the market

### Increase without additional accessories

Some models are simply turned over by the customer upside down. This raises the bed and creates space for a storage drawer.

### Conversion according to the customer's taste

On some models, the customer can freely remove the roof, headboards and sides.

### Folding into two beds

With the help of an extension kit, your customer can turn a single house or teepee into two single beds for children
