EXCLUSIVE OFFERS customization of products and creation of unique models

Hello!

We are a young and creative team at the enterprise Ltd Pupt, which has maintained the Pusku pusku brand in Lithuania and abroad **since 2008**. We follow a philosophy that people do not need big changes or investments in their lives to be happy, because we believe there is something to be glad about in everyone's life.

Those joyful moments when you fall into a bean bag and dream a bit, or share your thoughts and stories about the day with your loved ones, are natural forms of happiness in which we can all participate. Inspired by this view, we offer a choice of **more than 1500** different bean bags created for modern people who seek new designs and uniqueness in every detail. With a wide range of colours, fabrics and models, even the pickiest person can find a product just for her or him.

We at Pusku pusku are pleased to be **the biggest bean bag manufacturer** in Lithuania, and we are also becoming known all over the world! We are proud that there is special attention for our products in Latvia, Estonia, Germany, Finland and Sweden, which is why we export more than 40% of them. About 90% of products are sold with the **Pusku pusku brand label**, although we are also creating products for individual needs and on a white-label basis - with clients able to put their own branding on our designs.

Printed and embroidered bean bags can be even more extraordinary with the unique image or logo of a client. We try to ensure pleasant customer service and guarantee high-quality products, because **we love what we do!** We discover new ideas every day and constantly search for new opportunities, so we're open to all ideas and suggestions.

Young and creative: that's us. Let's meet each other!

MAIN Information

EVERYTHING ABOUT QUALITY

Inside and outside

We are making *Pusku pusku* bean bags with love! Product quality control is observed in the process of manufacturing of bean bags, which is ensured by assigning a quality code in every phase of manufacturing.

All bean bags consist of two bags:

- **an inside bag**, which is filled with a bean bag filling, i. e. polystyrene (EPS) beads;
- **an outside bag**, which is easy to take off and wash or clean (depending on the kind of textile it is made of).

Only strong cloths of special selection and tested by means of the Martindale textile resistance test are used for manufacturing our bean bags.

.....

Zippers

Strong zippers with wide teeth are used for outside bags. Pulls of zippers are hidden under the seam of the cloth thus ensuring protection of the floor covering from damage. All inside bags have zippers, which enables the manufacturer to regulate the quantity of the filling that determines softness of the bean bag.

01

// OUTSIDE ZIPPER

02

// INSIDE ZIPPER

Bean Bag Beads

Polystyrene beads that are used for the filling are getting naturally compressed by seating in the course of time. Higher durability and higher density granules are used for Pusku pusku bean bags. With the aim to prevent the fire risk, non-flammable granules that are certified as conforming DIN 4102 standard are used

.....

Packaging

Bean bags are **packed in two ways** on the request of the client:

- in two thick and strong bags made of recycled polyethylene or
- in a cardboard box containing a pre-packed product in a protective polyethylene bag.

Bean bag threads and details

Elements for bean bags are cut out semi-automatically. This method enables the manufacturer to avoid any divergence from the set measurements and eliminate defects in the final product. Edges of all textile elements (cut-outs) used for the manufacturing of bean bags are thread-hemmed thus preventing the cloth from raveling and ensuring high quality of the product. Bean bags are sewn by making a double-stitched seam with reinforced (enhanced strength) threads.

Soft woven labels are used for labelling bean bags.

Print

Pusku pusku handcrafted bean bags can be designed according to your request. You can choose partial printing or completely cover the bean bag chair with your chosen image. For the best result, we recommend the OX or Outside fabrics.
