PL Przed rozpoczęciem montażu mebla wszystkie elementy należy sprawdzić czy nie są uszkodzone. W przypadku wykrycia uszkodzenia elementu należy odstąpić od montażu mebla i złożyć reklamację. Montaż produktu w oparciu o uszkodzone elementy oznacza akceptację ich stanu przez Kupującego, co powoduje, że reklamacja uszkodzonych elementów nie będzie uznawana.

Nie wolno przekraczać podanych maksymalnych wartości obciążenia. W innym przypadku można mebel uszkodzić lub zniszczyć.

Przed zawieszeniem mebla, lub przymocowaniem go do ściany (w celu zabezpieczenia przed przewróceniem), sprawdź wcześniej rodzaj i wytrzymałość ściany. Dobierz odpowiednie kotki i wkręty do rodzaju ściany. W przypadku wątpliwości skontaktuj się ze specjalistą. Montaż musi zostać wykonany przez osobę kompetentną.

D Vor Beginn der Möbelmontage sollten alle Elemente auf Beschädigungen überprüft werden. Wenn ein Element des Produkts beschädigt ist, installieren Sie das Produkt bitte nicht und reichen Sie eine Beschwerde ein. Die Installation des Produkts auf der Grundlage der beschädigten Elemente bedeutet, dass der Käufer seinen Zustand akzeptiert, was bedeutet, dass die Beschwerde über beschädigte Elemente nicht akzeptiert wird.

Überschreiten Sie die angegebenen Maximalbelastungen nicht. Andernfalls kann das Möbelstück beschädigt oder zerstört werden.

Bevor Sie ein Möbelstück an einer Wand aufhängen oder befestigen (um es gegen Umkippen zu sichern), prüfen Sie Art und Tragfähigkeit der Wand. Wählen Sie für die Wand geeigneten Dübel und Schrauben. Im Zweifelsfall kontaktieren Sie bitte einen Fachmann. Die Montage muss durch eine sachkundige Person ausgeführt werden.

F Avant de commencer l'assemblage du meuble, tous les éléments doivent être vérifiés pour détecter tout dommage. Si un élément du produit est endommagé, veuillez ne pas installer le produit et déposer une plainte. L'installation du produit sur la base des éléments endommagés signifie que l'acheteur accepte leur état, ce qui signifie que la réclamation d'éléments endommagés ne sera pas acceptée.

Ne dépassez pas les charges maximum indiquées. Sinon, le meuble peut être endommagé ou détruit.

Avant de suspendre le meuble ou de le fixer au mur (dans le but d'éviter un renversement), vérifiez au préalable le type et la résistance du mur. Utilisez les chevilles et les vis adaptées au type de mur. En cas de doute, veuillez contacter un spécialiste. Le montage doit être réalisé par une personne compétente.

Dear customer,
Thank you for your order!
No matter if you bought a piece of furniture made from natural wood, a high-gloss front or a plastic front – every piece of furniture has unique characteristics. Even the texture and structure of wood, such as small knots in natural wood furniture, are part of the individual charisma of each piece of furniture.

Since natural wood furniture are permanently exposed to climate and humidity fluctuations, changes to the surface may occur (e.g. hair cracks or changes in colour) in some cases. In general, brightness decreases and colour saturation increases in the course of time – the wood darkens. The changes mentioned above are normal for natural raw materials such as wood. This booklet provides some care tips for your piece of furniture so that you can enjoy it for a long time.

Gentili clienti,
Sentiti ringraziamenti per il vostro ordine!
A prescindere che abbiate scelto un mobile realizzato in legno naturale, un fronte lucido o un fronte di materiale plastico opaco – ogni esemplare ha sue particolarità. Anche le caratteristiche e la struttura del legno, quali ad esempio rami minori nei mobili di legno naturale, sono parte del fascino individuale di ogni singolo mobile.

Dato che i mobili in legno naturale sono esposti al continuo variare del clima e dell'umidità, è probabile che in superficie insorgano mutamenti quali crepe capillari o cambiamenti di colore. Generalmente con passar del tempo, diminuisce la chiarezza e aumenta la saturazione del colore – il legno si scurisce. I citati mutamenti sono un normale processo dei materiali naturali, quali appunto il legno.

Il presente libretto intende darvi alcuni suggerimenti sulla cura del vostro mobile, affinché vi procuri lunghe soddisfazioni.

Sostanzialmente vale:

• Non poggiare oggetti roventi sui mobili dei mobili.
• Non poggiare candele a diretto contatto dei mobili.
• Asciugare subito i liquidi sversati.
• Ad intervalli periodici controllare se viti e cerniere sono salde.

• Il caratteristico odore fragrante è sempre una prova di qualità dei mobili in legno naturale.
• Le macchie chiare sui rami si formano per via della naturale fuoriuscita di resina, e sono levigabili con un panno asciutto che non lascia peli.
• Anche trattandosi di altri materiali lignei, di vernice, pelle o imbottiti, all'inizio è inevitabile un leggero odore caratteristico. Dopo qualche tempo però, questi odori svaniscono da sé.
• Potete aiutare a farli volatilizzare in minor tempo cambiando più spesso aria all'inizio e/o passando sui mobili un panno umido d'acqua con qualche goccia d'aceto.
• Conservare bene le presenti istruzioni.

Istruzioni sulla cura dei mobili in materiali pannellati

Per la cura dei mobili in materiali pannellati si consiglia di usare un panno morbido, che non lascia peli, o un panno di pelle. Passare il panno leggermente umido sulle superfici.

Sostanzialmente vale: In nessun caso utilizzare i seguenti detergenti e prodotti per la pulizia:

• **panni in microfibra o spugne a tampone.** Questi prodotti contengono spesso fini particelle abrasive, che possono provocare sgraffiature sui mobili;
• **forti sostanze chimiche nonché detersivi o solventi abrasivi.** Anche questi prodotti possono aggredire le superfici;

• **polvere abrasiva, paglietta d'acciaio** o **spugne abrasive.** Rovineranno la superficie in modo tale che non sarebbe più possibile riparare;

• **aspirapolvere.** Bocchette e spazzole possono sgraffiare le superfici;
• **pulitrice a vapore.** Per via dell'elevata pressione e calore con cui il vapore colpisce le superfici, esse rischiano di deteriorarsi o addirittura staccarsi dalla sottostruttura.

Chère cliente, cher client,
Merci pour votre commande !
Peu importe que vous ayez acheté un meuble fabriqué en bois naturel, un face haute brillante ou une face en plastique mat – chaque meuble a ses propriétés spécifiques. Même les propriétés et la structure du bois, comme par exemple les petits nœuds sur des meubles en bois naturel, font partie de l'aspect de chaque meuble.

Comme les variations permanentes du climat et de l'humidité, il se peut que quelques modifications surviennent sur la surface, comme par exemple de fines fissures ou des décorations. En règle générale, au cours du temps, la clarté du meuble diminue et la saturation des couleurs augmente. Les modifications susnommées sont un processus normal des matières naturelles.

Ce petit livret vous donne quelques astuces sur l'entretien de votre meuble pour que vous puissiez en profiter longtemps.

En règle générale :
• Ne pas poser d'objets chauds sur le meuble.

• Ne pas poser de bougies directement sur le meuble.

• Essayer immédiatement les liquides renversés.

• A intervalles réguliers, contrôler que vis et les ferrures sont bien en place.

• L'odeur aromatique typique du bois est toujours une preuve de qualité des meubles en bois naturel.

• Les endroits clairs sur les nœuds se produisent par une sécrétion naturelle de résine qui s'élimine avec un chiffon sec non pelucheux.
• Les autres matériaux, comme le bois, la peau ou le cuir, ont également un léger dégoût inévitablement une légère odeur. Ces odeurs disparaissent d'elles-mêmes avec le temps. Si vous souhaitez qu'elles disparaissent plus vite, au début, aérez plus souvent et essayez les meubles avec un chiffon légèrement imbibé d'eau mélangée avec un peu de vinaigre.

• Conservez bien cette notice.

Consignes de soin pour les meubles avec des plaques en dérivé du bois
